

TO: Workforce Investment Board

Date: September 26, 2002

For Action
 For Information
 Meeting Notes

FROM: Planning, Policy Development & Legislation Committee

SUBJECT: Self-Sufficiency

PROPOSED MOTION: That the Board ratify the following action taken by the WIB Executive Committee, August 12, 2002 - (1) establish the Self-Sufficiency Wage for Adults at \$10.62 per hour and (2) establish the Self-Sufficiency Wage for Dislocated Workers at 85% of the individual's dislocation (layoff) wage but in no event less than the Adult Self-Sufficiency Wage.

DISCUSSION: WIA (at Section 134(d)(3)(A)(ii)) and the regulations (at 20 CFR § 663.220) stipulate that, in order to receive Intensive or Training Services, employed Adults and Dislocated Workers must have received at least one core service and be determined by a One-Stop operator to be in need of Intensive or Training services to obtain or retain employment that leads to self-sufficiency. The regulations (at 20 CFR § 663.230) state that Local Boards must set the criteria for or definition of self-sufficiency.

At its meeting on May 24, 2001, the Workforce Investment Board set the Self-Sufficiency Wage for Adults at 10.00 per hour and the Self-Sufficiency Wage for Dislocated Workers at 85% of the individual's dislocation (layoff) wage but in no event less than the Adult Self-Sufficiency Wage. The Board further directed that said wage shall be reassessed at least once per year.

Based upon the methodology¹ previously agreed and the latest wage statistics, the committee proposes an Adult hourly wage derived as follows:

	<u>Current</u>	<u>Proposed</u>
Wage Data:	Q1 – 2001	Q1 - 2002
H.S. or less weighted average²:	\$8.87	\$9.09
Adjustment for Cost of Living³:	+10.5%	+14.9%
Adjusted Wage:	\$9.81	\$10.45
Assumed Annual Wage Inflation⁴:	+3.9%	+3.2%
Final Adjusted Wage:	\$10.00	\$10.62

1 – The methodology agreed by the Committee and the WIB states that the Self-Sufficiency Wage shall be the weighted national average at the 25th percentile of wages of adults (aged 25 years and older) who have a high school diploma or less and are in full time employment and that said hourly rate shall be adjusted to take into account the difference between the cost of living in Merced County and the US and further adjusted to consider secular trends in wage inflation for the twelve month period after the wage is set.

2 - Current Population Survey – Table 4. Quartiles and selected deciles of usual weekly earnings of full-time wage and salary workers by selected characteristics, first quarter 2002 averages, not seasonally adjusted - The Current Population Survey (CPS) is a monthly survey of households conducted by the Bureau of Census for the Bureau of Labor Statistics. It provides a comprehensive body of data on the labor force, employment, unemployment, and persons not in the labor force

3 – CNN “Best Places to Live” Cost of Living Index for Merced County as of May 3, 2002

4 – Forecast by Workforce Investment Board staff – adjustment is for one-half year of anticipated wage increase
