**SUBJECT: WIB Self-Assessment Survey**

**PROPOSED MOTION(S):** Review the WIB Self-Assessment Survey and discuss the strong areas and the areas that the WIB would like to address to improve their performance as a board. Determine who will be responsible and how it will be accomplished.

**DISCUSSION:** The membership of the WIB has a strong commitment to the continuous improvement of the activities it oversees and the board itself. A self-assessment tool developed by the National Association of Workforce Development Boards was completed by 23 members in September 2001. The results can be used to determine if the board is meeting its own expectations and what items may warrant special attention.
