Why Choose Baldrige?

- **The Criteria for Performance Excellence provide a framework for improvement without being prescriptive.** Organizations are encouraged to develop creative and flexible approaches aligned with organizational needs and to demonstrate cause-effect linkages between these approaches and their results.

Why Choose Baldrige?

- **The Criteria are inclusive.** While other approaches focus on a single aspect, such as leadership, strategic planning, or process management, the Criteria describe an integrated management framework that addresses all the factors that define the organization, its operations, and its results.

Why Choose Baldrige?

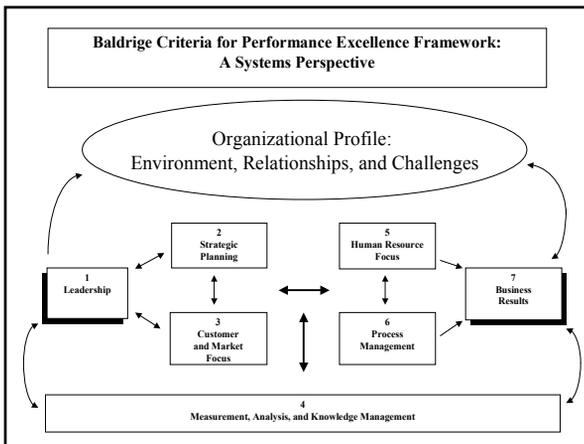

- **The Criteria focus on common requirements, rather than procedures, tools or techniques.** Other improvement efforts (e.g., ISO, Six Sigma, or accreditation) may be integrated into the organization's performance management system and included as part of a response to Criteria requirements.

Why Choose Baldrige?

- **The Criteria are adaptable.** They can be used by large and small businesses, education and health care organizations, government and nonprofit organizations, and organizations with one site or worldwide locations.

Why Choose Baldrige?

- **The Criteria are at the leading edge of validated management practices.** They are regularly improved to enhance coverage of strategy-driven performance, address the needs of all stakeholders, and accommodate important organizational needs and practices.
