

## Highlights of Youth Works 2000

A partnership of the Human Services Agency, the Private Industry Training Department, and the Communities of Merced County.

- Youth Works 2000 opened on July 5th with 180 TANF youth between the ages of 16-18 working at a variety of jobs throughout the county. All eligible youth were placed.
- Planned closing date for program is August 11th, giving each youth an opportunity to work a total of 192 hours during the period, earning up to \$1,104.00.
- HSA and PITD worked out placement goals for each community to ensure equitable coverage throughout the county.

LOCATION	APPLICATION GOALS PER COMMUNITY	TOTAL NO. OF APPLICATIONS RECEIVED	NO. OF APPLICANTS PLACED
Livingston	14	9	7
Gustine/Santa Nella	27	1	1
Los Banos	24	18	10
Dos Palos	18	22	18
Delhi	8	6	4
Atwater/Winton	48	41	31
Merced/EI Nido	100	156	119
Hilmar/Stevinson	8	2	2
LeGrand/Planada	20	6	3
Snelling	3	0	0
<b>TOTAL</b>	<b>270</b>	<b>261</b>	<b>195</b>

- Offered several placement centers to better serve the youth for pre-placement orientations and pre-employment activities. We noted that there was very little fallout in pre-placement numbers. All in all, the youth participated in the activities very enthusiastically.
- Part of preparation for working is an assessment of basic skills and aptitude for types of jobs. The Youth Services historically administers a basic reading and math test. The Test of Adult Basic Education (TABE) were used to help in placement. We pre and post test all youth.
- The Department of Labor emphasizes that a major value of the summer work experience is to stem learning loss. We continued the tradition to offer organizations concerned with the welfare and education of youth more information about our target population and interventions successful with the population.
- Of the 188 youth tested, the average reading score is 5th grade, 7th month; the average math

score is 6th grade, 3rd month. Of the youth, 30% scored 7th grade or higher on either reading or math and 43.5% of the youth scored 4th grade or lower in either reading or math comprehension.

- We have also asked each participant to write a paragraph on their summer experience. We will have some of the stories compiled as part of the Youth Council package for September.

As the program closes, staff offers recommendations for program improvement. If the Youth Council again seeks supplemental funding for a Summer Youth program,

1. The traditional cycle should be implemented:

Fall of the Year	-	Resource Development
Winter	-	Program Planning
Spring	-	Recruitment of Worksites and Youth
Summer	-	Implementation and Evaluation

2. Expand in age 14-18 years.
