Meeting Notes

SUBJECT: Second Youth Survey

PROPOSED MOTION(S): Information Only

DISCUSSION:

Now that the Youth Needs Assessment Survey is completed and the analysis of the data has led to the committees efforts to complete the Asset Map and Gap Analysis, it is time to consider a second youth survey.

It is the goal of the committee to place the survey on the Web, and action is being taken to provide the survey for a minimum of six months before any additional analysis should be done.

However, it is suggested that a less efficient, but more reactive survey be conducted utilizing the almost 900 students in the Merced County Office Education ROP program.

Initial contact with the director, Evelyn Eagleton, indicates that her office would conduct the survey for us. The survey would only require some minor adjustments and results, if the survey was given early in January 2002, could be available as early as March or April, 2002.
