Meeting Notes

SUBJECT: Youth Council Membership Study

PROPOSED MOTION(S): None

DISCUSSION: The Marketing and Leadership Committee is in the process of studying the makeup of the current Youth Council Membership, the applications for membership currently being processed and what combination of youth and adult members will best serve the needs of the council.

Since the Operations Committee with Youth Council approval has established membership attendance standards effective in January 2002, this study become even more important since members will need to be replaced during this calendar year.

The committee has indicated its preference for 40 total members with 10 percent of that total made up of youth from throughout the county.

The committee will finalize its proposal at their next meeting and provide an action item at the April 2002 Youth Council meeting.
