SUBJECT: Time and Day Meeting Preference Survey

PROPOSED MOTION(S): Information only

DISCUSSION:

At the April 2001 Youth Council Meeting, it was decided to survey council members in order to determine the most preferable and convenient day and time to hold Youth Council meetings.

The survey was provided at the May 2001 meeting, and council members were asked to return their completed surveys prior to the June 2001 meeting.

Twenty-three responses were received from the 38 members (61%). However, the results were not conclusive, possibly due to the wording used in the survey.

The most preferable day of the week was Tuesday (11 of 41 or 27%) with Wednesday (10 of 41/24%) second.

The 4:00 p.m. to 6:00 p.m. timeframe was indicated in 11 of 29 (38%) responses and the third Tuesday of the month was preferable on six of 46 surveys (13%), but 7 of 46 (15%) indicated no preference.

A copy of the survey results is attached for your information.
